Canada offers high quality, low cost education, with tuition rates lower than other first world and developed countries. The academic environment in Canadian Universities and colleges is excellent, with a focus not just on classroom lectures, but also on the acquirement of practical skills in respected fields which enable students to know how to use their knowledge in real life. Canada welcomes international students each year. If you intend to study at a Canadian educational institution in undergrad or post-graduation or Masters/PhD program, most foreign nationals must apply for a study permit. A Study Permit is a document issued by Immigration, Refugees and Citizenship Canada (IRCC) that allows a foreign national to study in Canada for a limited time. A study permit, once issued, allows a foreign national to study in Canada at an approved institute for the duration of the specified program.
